

## "TERROIR" MENU

<< French term from the Latin terra >>

Every morning, our organic garden at Na Xamena offers us a world of nature with different flavours, scents and colours.

Nature is the heart of our menu, and seasonality is the fundamental pillar of our gastronomy.

We invite you to let yourself be carried away on a journey of experiences, flavours and nature; and we share with you our respect for the environment and seasonality. We present you our healthy, creative and versatile cuisine, made with local and km0 products.

We delight you with a vegetable menu, which is composed of  
starter,  
middle dish,  
main course,  
dessert;  
as well as a few surprise bites.
